
Technical Data Sheet

Commercial name: NBR Latex SINYA

Chemical name: ACRYLO-NITRYL BUTADIENE RUBBER

CAS No.: 9003-18-3

Similar: Bayer-N-LATEX 3415M, LG,Kumbo quality.

General Specification

Appearance: Milky liquid

Total solid substance: 43.5 % Min.

PH: 7.5-8.5.

Viscosity: 15-100mPa.s.(normal temperature)

Acrylonitrile Content : 35-39%

Application:

It can be used to manufacture oil resistant film, oil resistant gloves, oil resistant rubber hose and rubber silk, main used in the NBR latex gloves and NBR latex(Grind arenaceous gloves)

Storage: In a cool, dry, well ventilated area away from incompatible materials.

Packing: 200kg plastic drums / 1000kg ICBC drums or Flexitank

Address: Bohai Industrial Zone, Shouguang City
Shandong Province, 262700, China
